

Submission under 37 C.F.R. §1.114
Application No. 10/820,844
Attorney Docket No. 030486

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions of claims in the application.

Listing of Claims

Claims 1-4 (cancelled)

Claim 5 (currently amended): A chemiluminescent composition,[[:]]

an oxalate;

a fluorescent material; [[and]]

an acetyl tributyl citrate as ~~a major organic solvent~~ at an amount of 70% by volume or more; and

benzyl benzoate or butyl benzoate at an amount of 30% by volume or less,

wherein the chemiluminescent composition induces chemiluminescence when being mixed with an oxidizing composition comprising hydrogen peroxide.

Claims 6-8 (cancelled)

Claim 9 (previously presented): A chemiluminescent composition according to claim 5, wherein the oxalate is (2,4,5-trichlorocarbopentoxyphe~~nyl~~)oxalate.

Submission under 37 C.F.R. §1.114

Application No. 10/820,844

Attorney Docket No. 030486

Claim 10 (currently amended): A chemiluminescent components, comprising:

a first component, comprising:

an oxalate;

a fluorescent material; [[and]]

an acetyl tributyl citrate at an amount of 70% by volume or more as a major organic solvent; and

benzyl benzoate or butyl benzoate at an amount of 30% by volume or less,

a second component separated from the first component, comprising:

hydrogen peroxide.

Claims 11-13 (cancelled)

Claim 14 (previously presented): A chemiluminescent components according to claim 10, wherein the oxalate is (2,4,5-trichlorocarbopentoxyphenyl)oxalate.

Claim 15 (previously presented): A chemiluminescent components according to claim 10, wherein the second component further comprises t-butanol and at least one of ethylene glycol monoalkyl ether acetate and diethylene glycol monoalkyl ether acetate.

Submission under 37 C.F.R. §1.114
Application No. 10/820,844
Attorney Docket No. 030486

Claim 16 (previously presented): A chemiluminescent components according to claim 10, wherein the oxidizing composition further comprises t-butanol and at least one of ethylene glycol monobutyl ether acetate and diethylene glycol monobutyl ether acetate.

Claim 17 (previously presented): A chemiluminescent composition according to claim 5, wherein the acetyl tributyl citrate is included at an amount of 90 volume % or more in the organic solvent included in the chemiluminescent composition.

Claim 18 (previously presented): A chemiluminescent composition according to claim 10, wherein the acetyl tributyl citrate is included at an amount of 90 volume % or more in the organic solvent included in the chemiluminescent composition.

Claim 19 (new): A chemiluminescent composition according to claim 5, wherein benzyl benzoate is comprised at an amount of 30% by volume or less.

Claim 20 (new): A chemiluminescent composition according to claim 10, wherein the first component comprises the benzyl benzoate at an amount of 30% by volume or less.
